

# FAIR OAKS

## RECREATION & PARK DISTRICT

MEMO TO: Fair Oaks Recreation and Park District Board of Directors

FROM: Michael J. Aho, District Administrator

SUBJECT: Notice of Claim Received from Myles Kennison

On June 3, 2020, Myles Kennison states that he was exercising at Bannister Park on the soccer field and stepped into a hole, breaking his left fibula. The hole was identified and subsequently filled in by staff. The District received a claim for \$20,000 in compensation for lost wages and medical expenses on October 1, 2020.

Per CAPRI, the claim should be denied. Should the Board move to deny this claim, the claimant will have six (6) months from the date of notice to file a court action on the claim. If the claimant proceeds to do so, CAPRI (the District's indemnifier) will take over actions in this matter on behalf of the District. If the Board moves to accept this claim, CAPRI will not cover the District's liability.

This matter is placed on the November regular Board meeting agenda as a minute action in the consent calendar. CAPRI does not recommend that the Board discuss the claim in open session. Should the claimant move forward with further legal action, the claim will appear on a future agenda as a closed session item.

Respectfully submitted,

Michael J. Aho,  
District Administrator
